

Quick Attach Clip & Pin

HIGH-R[®] Quick Attach Purlin Clips

The HIGH-R[®] Quick Attach Clips are the solution designed to provide a quick and easy installation of materials to the roof purlins or wall girt in a pre-engineered metal building. The special design makes fast work of attaching scrim, banding and roll material to the under side of the roof deck or the side walls. No hassle of using self-tapping screws with washers to drill through the metal structure. Just clip and go. The Quick Attach Clips work by sliding over the edge of the purlin or girt. The material is then put into position and captured with a plastic cap that locks onto the prong. No tools required.

Benefits

- No fasteners or washers needed
- Plastic Caps do not allow condensation to form and drip
- Installed by hand, no tools needed to install the Quick Attach Clips
- Galvanized for long life
- Spring steel for sure grip install
- Can be used with a variety of materials that may be mounted on the ceiling or walls

Cost

- \$0.51 per clip and cap when purchased by the carton*
- \$0.56 per clip and cap when purchased individually*
- Packaged in cartons of 500 pieces

- * Plastic Cap included
- * Price is subject to change
- * Price does not include freight
 - Able to ship UPS, DHL or FedEx
